Continental bed

YAPEN

The YAPEN bed with headboard is our next model with a universal look. Regular, vertical quilting gives the slightly narrowing headrest lightness and elegance. The sides, on the other hand, are finished with a decorative upholstery keder. We offer this bed in classic version (FIXED) with large (NORMAL) or small (SLIM) chest - box, in the version with an electric mechanism (MOTION) or with a container for bedding (STORAGE).

In the relax version, the ability to control the bed with a wireless remote control makes the YAPEN bed even more comfortable.

For couples with different requirements, there is an option to configure one part of the bed in a classic form and the other with the MOTION electric system. All versions of the continental bed are available in various color variants, so that everyone will adjust the color of the fabric to the appearance of their bedroom
