Continental bed

FRAZER

The bed with headrest FRAZER was created for those who appreciate elegance and comfort. The universal design will suit every bedroom. Tasteful, symmetrical quilting gives the bed a timeless character.

FRAZER bed looks great when combined with a footboard, which gives it a coherent character.

The bed is offered in a classic version (FIXED) with a large (NORMAL) or small (SLIM) box-bed and in a version with an electric mechanism (MOTION). The possibility to control the bed with a wireless remote control makes the FRAZER bed even more comfortable. For couples with different requirements, there is an option to configure one part of the bed in classic form and the other with the MOTION electric system.

All versions of the continental bed are available in different colour options, so everyone can match the colour of the fabric to the look of their bedroom
