DARU

The DARU collection is addressed to people who value change. The biggest advantage of DARU beds is the variety of solutions and their mobility.

An advantage of the model is the removable cover, both on bed as well as on the headboard. This makes it possible to change the look of the furniture, as well as easy cleaning.

The DARU bed consists of four separate elements, easy to transport. It is also ideal for places of collective accommodation, such as hotels, guest houses or holiday centres.

DARU single beds can be put together and thanks to wheels installed in the back legs, they can also be easily moved.
